FOR IMMEDIATE RELEASE

SOURCE NATURALS INTRODUCES CoQ-QUICK™

BREAKTHROUGH, FAST-DISSOLVING LOZENGE

Scotts Valley, California— Source Naturals has expanded its extensive line of the vital nutrient Coenzyme Q10, with new fast-acting CoQ-QUICK.

Coenzyme Q10 (CoQ10) is a cellular energizer that is one of the most critical nutrients you can take to support your health. Now Source Naturals offers you the next generation in CoQ10 formulation. CoQ-QUICK is a breakthrough, patented CoQ10 lozenge.

Source Naturals spokesperson Tony Lucchesi says, “CoQ-QUICK was developed using fast-melt technology—so it begins dissolving immediately on your tongue, for rapid absorption into your bloodstream. And CoQ-QUICK is a delicious lozenge, made with natural orange flavor!”

CoQ10, a naturally occurring nutrient found in every cell of your body, is vital for the production of ATP, the energy molecule. Some of your most important body systems—your heart, brain, liver, and immune system—require vast amounts of energy to function. And physiological levels of CoQ10 in your body may decrease after the first 20 years of life.

CoQ-QUICK addresses six of the twelve SystemiCare™ deep metabolic systems identified by Source Naturals as critical for optimum health: Energy Production, Circulation/Heart Health, Liver/Detox, Immunity, Cognition/Nerves, and Antioxidant Defense.

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well-being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
