Source Naturals Introduces Organic Spirulina

Nature's Green Superfood

Scotts Valley, CA – Source Naturals introduces Organic Spirulina, a complete source of vegetarian protein which is cultivated under strict USDA Organic regulations, improving purity and potency. Source Naturals Organic Spirulina is available in 500 mg tablets and a free flowing powder which are 100% pure, binder-free organic spirulina. Source Naturals has identified 12 deep metabolic systems which are important for your health. Organic Spirulina provides support for five of these systems: Inflammation; Oxidative Stress; Cells/DNA; Immune Function and Healthy Circulation.

Threshold Enterprises, Ltd. Spokesperson Tony Lucchesi says this: "Organic Spirulina is a complete vegetarian protein. It is packed with amino acids, carotenoids, chlorophyll, minerals, essential fatty acids and vitamins, which in combination, support the immune system, provide antioxidant defense and promote healthy circulation."

Source Naturals Organic Spirulina is a vegetarian protein and a highly functional food source and has even been suggested as a solution to combat malnutrition throughout the world. Spirulina is a superfood which can be enjoyed by health conscious people everywhere. Source Naturals Organic Spirulina is a nutritional source for those who wish to supplement their diet while engaged in a weight loss program.

And, according to Lucchesi, "Spirulina. For over 30 years spirulina (*Arthrospira platensis*) has been a premier source of many nutrients that are hard to maintain at adequate levels with a vegetarian diet. Spirulina is especially popular with sports enthusiasts and world class athletes who use spirulina for endurance and energy both during training and competition."

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well-being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
