FOR IMMEDIATE RELEASE

SOURCE NATURALS INTRODUCES UBIQUINOL: CoQH

THE POWERFUL ANTIOXIDANT COQ10 IS NOW MORE ABSORBABLE

Scotts Valley, California—Source Naturals is proud to offer Ubiquinol: CoQH, a premier form of CoQ10 that offers enhanced absorption into the body.

Retaining all of the broad-ranging benefits of CoQ10, Ubiquinol: CoQH delivers higher concentrations of CoQ10 to support your body's most important systems. CoQ10 bolsters the production of cellular energy that helps support cardiovascular, liver, and brain functioning.

Source Naturals spokesperson Tony Lucchesi says, "A supplement's efficacy is determined in large part by its absorbability. Functionally, the better absorbed a product is, the better chance it has to achieve optimum results as it is processed by the body. Ubiquinol is a superior CoQ10 product because of this—its higher absorption results in higher CoQ10 levels within the blood."

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>
