FOR IMMEDIATE RELEASE

SOURCE NATURALS INTRODUCES

**Gâc Fruit Oil
Skin Protector and Antioxidant Rich Fruit from the Far East**

Scotts Valley, California— Source Naturals is pleased to bring into the marketplace, a powerful nutritional supplement, **Gâc Fruit Oil**, available in a convenient 1000 mg softgel capsule. Gâc fruit is well known by indigenous cultures throughout South East Asia but has only recently been discovered by the rest of the world. Gâc is a highly bioavailable source of antioxidants which provide healthy skin support. The women of Asia are enthusiastic in their praise of gâc and refer to it as nature's gift to women.

Threshold Enterprises, Ltd. Spokesperson Tony Lucchesi says, "Source Naturals **Gâc Fruit Oil** is a premier source of carotenoids, especially beta-carotene. The carotenoids in gâc fruit oil are powerful antioxidants which may help support cellular rejuvenation throughout the entire body."

The carotenoids in gâc fruit are powerful free radical scavengers that may support the body's immune response and be of benefit for cardiovascular health. Beta-carotene is a vitamin A precursor, which is converted to vitamin A in the body only when it is needed.

And, according to Lucchesi, "Scientific research has shown that **Gâc Fruit Oil** may support 6 of the 12 deep metabolic systems identified by Source Naturals that are important for your health. These 6 SystemiCare™ systems are: Cells/DNA; Antioxidant Defense; Immunity; Structure/Connective Tissue; Circulation; and Cognition/Nerves."

SystemiCare™ is a new path to wellness which focuses on bringing balance to all the body's interrelated systems. Source Naturals achieves this through introducing scientifically researched nutrients, herbs and special ingredients which deliver high standards of quality, purity, and effectiveness. This presents opportunities for a better quality of life through supplementation with proven products. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
