Source Naturals Introduces Blood Pressure Response™

Supports Healthy Blood Pressure

Scotts Valley, CA – Stress, unhealthy diets laden with sugar and salt, lack of exercise—today's lifestyle challenges our ability to maintain healthy blood pressure levels. Source Naturals can help with new **Blood Pressure Response™**.

Blood Pressure Response™ is a comprehensive Bio-Aligned Formula(TM) that can help maintain blood pressure already within the normal range, when used as part of a healthy diet and exercise plan.

The complex array of nutrients, botanicals and special ingredients in Blood Pressure Response provides balanced support for the deep SystemiCare™ metabolic systems identified by Source Naturals as critical for your optimal health: Heart/Circulation (including healthy blood vessels, blood flow, homocysteine levels, and blood lipid regulation) and Antioxidant Defense. Source Naturals Senior Research Scientist and the formulator of **Blood Pressure Response™**, Linda Meltzer, says, "Blood pressure health is critical because it is associated with many other body systems. Blood pressure affects, and is affected by, circulation to the heart and brain, glucose metabolism, oxidative stress, and functioning of the endothelial cells that line our blood vessels."

Meltzer adds, "**Blood Pressure Response™** helps balance the deep metabolic systems associated with healthy blood pressure levels."

Blood Pressure Response is formulated with antioxidant vitamins; cardioprotective botanicals such as arjuna, salvia, grapeseed, resveratrol, guggulsterones, and ginkgo; special ingredients such as CoQ10, trimethylglycine, and nattokinase; and much more.

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well-being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
