Source Naturals Introduces Slenderluma™

Naturally Suppresses Appetite and Enhances Weight Loss

Scotts Valley, CA – Source Naturals introduces a powerful weight management product, Slenderluma™. This natural supplement is made from the Caralluma fimbriata plant, renowned throughout Africa, the Mideast and India for its many useful properties.

Historically, it was known as a famine food, eaten during times of food scarcity. Due to Caralluma's appetite suppressant qualities, peasants who ate it were able to go longer without eating. The succulent cactus was also a featured part of India's Ayurvedic practices for hundreds of years.

It is believed the secret to the Caralluma cactus's properties are pregnane glycosides. Source Naturals Science Educator Tony Lucchesi says, "These sugar compounds act on the hypothalamus, which is the part of the brain that controls hunger and satiety. The pregnane glycosides amplify the signaling of the energy-sensing function in the basal hypothalamus, fooling the brain into a feeling of fullness."

Source Naturals Slenderluma™ is a standardized extract of this exotic plant. The Caralluma genus thrives throughout the Far East and Africa. The vibrant, sometimes sour-smelling succulent is very popular in India. It is eaten raw, cooked with spices as a vegetable, or used in chutneys and pickling processes. Emerging studies indicate that Caralluma may be a safe, natural way to suppress hunger thus aiding in weight loss.

In Slenderluma™, Source Naturals has created a potent and healthy weight management product. As a staple in diets throughout India and other countries, the Caralluma cactus is safe and is not a stimulant. And it is available in vegetarian capsules. One capsule of Slenderluma™ taken 30-45 minutes prior to a meal provides the greatest appetite control.

For optimum benefits, use Slenderluma™ in conjunction with a healthy diet and exercise program to achieve your goals of healthy weight management.

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well-being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
