Source Naturals Introduces Brown Rice Protein Powder

High Quality Protein Designed For Vegans And Vegetarians

Scotts Valley, CA – Source Naturals is pleased to introduce Brown Rice Protein Powder, a premium, vegan-safe protein supplement that is designed for maximum efficacy.

Brown Rice Protein Powder is highly concentrated, hypoallergenic, and extracted from non-dairy sources. Unlike other rice protein sources, Brown Rice Protein Powder comes from sprouted brown rice, a source that is easier to digest.

Source Naturals spokesperson, Tony Lucchesi says, "Source Naturals Brown Rice Protein Powder is a concentrated, hypoallergenic source of vegetarian protein, both dairy and soy free, in a convenient powder form. It is a superior source of arginine, a nitric oxide booster that promotes a healthy cardiovascular system and may support weight management as a low-fat, healthy protein alternative."

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well-being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
