SOURCE NATURALS INTRODUCES LIFE GREENS & BERRIES™

Robust & Convenient Nutritional Support

SCOTTS VALLEY, Calif. – February 17, 2009 – Source Naturals is pleased to introduce Life Greens & Berries, a complete, optimally balanced, broad spectrum formula, which includes many tropical and exotic fruits, cereal grasses, sea vegetables (micro-algae), mushroom myconutrients, herbs, vegetables and high potency antioxidant extracts.

“The array of ingredients in Life Greens & Berries has been formulated for specific benefits: antioxidant defense, immune health, healthy liver function and relief of occasional stress,” says Source Naturals National Science Educator Guy Devin, Ph.D.

Source Naturals Life Greens & Berries is formulated to provide comprehensive nutritional support in a tasty berry flavored powder. Just mix with juice or water.

According to Devin, “Our hectic lifestyles and routines put stress on our bodies, creating a need for antioxidants and other active ingredients from fruits and vegetables. Life Greens & Berries is a convenient and easy way to help meet the USDA recommended daily intake of fruits and vegetables.”

Source Naturals Life Greens & Berries contains several effective strains of healthy probiotics to naturally assist the body’s digestive system and optimize nutrient absorption. One serving of Life Greens & Berries provides 125% of the daily value of vitamin C in a naturally occurring form, and over 3300 Oxygen Radical Absorbance Capacity (ORAC) units, absolutely filler-free.

Suggested retail for Life Greens & Berries is \$39.98 for a 9 oz container. To learn more about Source Naturals and Life Greens & Berries, or to find purchase locations, please visit www.SourceNaturals.com.
