SOURCE NATURALS INTRODUCES BERRYOXIDANTS™ *Food-Sourced Antioxidant Protection*

SCOTTS VALLEY, Calif. – April 2, 2009 – The plant world offers some of nature's most powerful antioxidants. Today exciting discoveries are emerging from research into the protective properties of fruits and botanicals, especially lush, delicious berries.

New Source Naturals BerryOxidants is a power-packed antioxidant complex featuring standardized extracts from fruits, especially berries, as well as herbs and spices. BerryOxidants combines more than 30 plant-derived antioxidants with a full 500 mg per tablet of vitamin C, for one of the most comprehensive formulas of its kind. Some scientific evidence suggests that consumption of antioxidant vitamins may reduce the risk of certain forms of cancer. However, the FDA has determined that this evidence is limited and not conclusive.

“At a time when our bodies are burdened by an unprecedented array of toxins, taking full advantage of the wealth of antioxidant protectors contained in plants is critical,” says Guy Devin, Ph.D., Source Naturals spokesperson and national science educator. “BerryOxidants features a wealth of outstanding plant antioxidants, which offer critical protection against the onslaught of free radicals in our polluted environment. Included are goji (lycii berry), mangosteen, amla, açai, raspberry, cherry, mulberry, elderberry, and much more.”

BerryOxidants addresses six of the 12 SystemiCare™ body systems identified by Source Naturals as necessary for optimal health: Liver/Detox (which may support longevity), Antioxidant Defense, Immunity, Circulation, Inflammation Response, and Structure/Connective Tissue.

Suggested retail for BerryOxidants is \$9.75 for 30 tabs, \$17.98 for 60 tabs and \$33.98 for 120 tabs. To learn more about Source Naturals and BerryOxidants, or to find purchase locations, visit www.SourceNaturals.com.
