SOURCE NATURALS INTRODUCES PYCNOGENOL® SUPREME™ *Berry and Botanical Antioxidant Complex*

SCOTTS VALLEY, Calif. – April 14, 2009 – During this century, our environment has become a perpetual source of free radical contamination from polluted air, water and food. We are literally overwhelmed with more free radicals than our bodies are accustomed to handling, creating an extreme “body burden.”

Now Source Naturals offers Pycnogenol Supreme: a power-packed antioxidant complex featuring the premium, scientifically researched pine bark extract, Pycnogenol. Pycnogenol Supreme also contains a dense mix of berries, herbs and green tea. This potent formula was developed to address the massive oxidative stress in today’s environment.

“Pycnogenol, an extract made from the bark of the French maritime pine (*Pinus maritima*), is differentiated from other pine bark products by its extensive research portfolio,” says Source Naturals National Science Educator, Guy Devin, Ph.D. “More than 170 published studies and review articles document the safety and efficacy of this amazing compound.”

Devin adds, “Pycnogenol Supreme combines Pycnogenol with a full 500 mg of vitamin C, plus more than 25 additional plant-derived antioxidants, for a broad range of free radical protection.”

Our bodies’ Antioxidant Defense mechanisms represent one of the key deep SystemiCare™ metabolic systems that must be supported for us to achieve optimal health. Pycnogenol Supreme addresses five additional SystemiCare systems: Liver/Detox, Immunity, Circulation, Inflammation Response and Structure/Connective Tissue.

Suggested retail for Pycnogenol Supreme is \$19.98 for 30 tabs and \$37.98 for 60 tabs. To learn more about Source Naturals and Pycnogenol Supreme, as well as to find purchase locations, visit www.SourceNaturals.com.
