Strategies for Wellness™

Natural Remedy

Homeopathy is Greek for similar disease. Minute doses of remedies are given that mimic the disease, which stimulate the body's defense mechanisms and create a natural line of immunity. WELLNESS FLUGUARD works effectively that way.

With homeopathy, you only need small amounts of a formula to achieve maximum results. Higher doses reduce effectiveness, so take only enough to stimulate your body's natural defenses. And with small dosages, there are no side effects, interactions with medications, or overdoses.

WELLNESS FLUGUARD also acts as a preventative before the onset of symptoms. Its other benefits are relief of flu symptoms such as fever and body aches, and a decrease in phlegm and expectoration. WELLNESS FLUGUARD has no contraindications or side effects, making it a mild, safe product for family usage.
