FOR IMMEDIATE RELEASE

SOURCE NATURALS INTRODUCES ULTRA POTENCY OMEGA-3 FISH OILS

MEGA-POTENT ARCTICPURE™ SUPPORTS HEART, JOINTS AND IMMUNITY

Scotts Valley, California—Source Naturals presents ArcticPure Ultra-Potency Omega-3 Fish Oil.

Threshold Enterprises, Ltd. spokesperson Todd Williams says, “These pure and potent omega-3 softgels provide a full 850 mg of omega-3s, including EPA and DHA.”

Omega-3 fish oil is one of the most important additions modern people can make in their daily health programs. Omega-3s support the entire body: healthy brain function, cardiovascular support, eye and retina health, neural cell function and development, support for the immune system, and healthy mood.

Williams explains, “Our ArcticPure Fish Oils not only have an extremely high potency, they are molecularly distilled for unparalleled purity. They are manufactured in an oxygen-free processing environment, so oxidation and ‘fish taste’ are eliminated.”

The ArcticPure UltraPotency softgel is one of three new, highly potent Omega-3 products: Source Naturals is also producing ArcticPure EPA and DHA softgels in lemon flavor and enteric coated-versions.

Source Naturals is committed to enhancing individual potential to enjoy optimal health and well being by providing superior quality dietary supplements and nutritional education. For more information or purchase locations, please visit <http://www.sourcenaturals.com>.
